

## Outcomes of Using PAMF

- PAMF will unite resource managers, researchers, and other stakeholders in a **collaborative effort** to promote enduring conservation
- PAMF will promote **cooperative, transparent decision making** to **reduce uncertainty** regarding the effectiveness of management
- PAMF is a **cost- and time-efficient** way to address large, regional-scale problems

## Services Provided by PAMF

- A **centralized database** accessible to all stakeholders
- **Standardized monitoring protocols**, scalable to different management areas and species of concern
- **Management recommendations** based on best current knowledge and modeling from objective data sets
- Development of **site-specific Best Management Practices (BMPs)**
