

Contact the Great Lakes Phragmites Collaborative at phragmites@glc.org with questions or to request revisions.

Phragmites management, especially at large scales, is often best handled by professionals who have training, proper protective equipment, and knowledge of the necessary permits and licenses.

To assist in the process of finding a contractor, we have collated state/province-specific *Phragmites* contractors. If you would like your business to be listed, visit our Contractor Listing Form (<https://greatlakescommission.wufoo.com/forms/s1ghecy1glei44/>) to fill out required information including pesticide licenses/permits held and services that can be provided.

The Great Lakes *Phragmites* Collaborative and the Great Lakes Commission make no endorsements of any contractor and do not make any statement regarding the quality of the work performed by these contractors. Contact the Great Lakes *Phragmites* Collaborative at phragmites@glc.org with questions or to request revisions. The contractor list is revised with any new contractor quarterly (last updated: 4/16/2021).

Business Name	Website	Contact Info. (Email, Phone, Address)	State / Province	Licensed to apply Herbicide in:	Management Services Provided	Prescribed Burn Management Scale	For all other services management area/scale (acres).	Previous Phrag Project Management Objectives and Experience
NOXIOUS VEGETATION CONTROL INC	http://novcoinc.com/	CWISSINGER@NOVCOINC.COM, 6149894608, 14923 STATE ROUTE 104, ASHVILLE, OH	Ohio	Illinois, Indiana, Michigan, Ohio, Pennsylvania, West Virginia, Virginia, Maryland	Herbicide application: Broadcast spray, Backpack spray, Hand application, Aerial Helicopter Application.		6000	Eradication
Savin Lake Services	http://lakeandpopnd.com	guysavin@lakeandpond.com, 9897282200, 3088 Hottis Rd, Hale, MI	Michigan	Michigan	Manual removal (e.g., hand removal, spading), Mechanical removal (e.g., cutting, mowing), Surveying/mapping, Herbicide application: Broadcast spray, Backpack spray, Hand application.		any	Restoration, Eradication, Containment, Asset protection, Land preparation. Savin Lake Services has been managing Phragmites for many individual property owners, associations, and municipalities all throughout Michigan for over 20 years. Larger projects that we have managed include the Bay City Water Treatment Plants' water retention ponds and all Lake Huron shoreline within Alcona County for the local Watershed Council. We have also been contracted for Phragmites control on all of the Lake Huron and Tawas River shorelines within the Tawas City limits since 2010.
Tallgrass Restoration, LLC	http://www.tallgrassrestoration.com	info@tallgrassrestoration.com, 8479259830, 2221 Hammond Drive, Schaumburg, IL	Illinois	Illinois	Manual removal (e.g., hand removal, spading), Mechanical removal (e.g., cutting, mowing), Prescribed burn, Surveying/mapping, Herbicide application: Broadcast spray, Backpack spray, Hand application.	200 ac	Forest Preserves, HOA's, Private homeowners, etc.	Restoration, Eradication, Containment, Asset protection, Land preparation.
Weeds B Gone	http://www.weedsbgone.com	info@weedsbgone.com, 9053734422, 2604 Division St. N., Cobourg, ON	Ontario		Manual removal (e.g., hand removal, spading), Mechanical removal (e.g., cutting, mowing), Surveying/mapping.			Restoration, Eradication. Parkbridge Lifestyle Communities, cottages and RV resorts cutting and removing of phragmites. City of Hamilton Conservation project cut and removal of phragmites.
Aquatic Enhancement & Survey, Inc.	http://www.aquaticenhancement.com	sbanfield@aquaticenhancement.com, 2606658226, P.O. Box 1036, Angola, IN	Indiana	Indiana, Michigan	Mechanical removal (e.g., cutting, mowing), Surveying/mapping, Herbicide application: Broadcast spray, Backpack spray, Hand application.		25 acres	Restoration, Eradication, Containment, Asset protection, Land preparation. We've provided phragmites control on a watershed-wide basis for lake association clients as well as providing control as an integrated part of the wetland restoration process.
Aquatic Doctors Lake Management, Inc.	http://www.aquaticdoctors.com	contact@aquaticdoctors.com, 6163651698, PO Box 150247, Grand Rapids, MI	Michigan	Michigan	Manual removal (e.g., hand removal, spading), Herbicide application: Broadcast spray, Backpack spray, Hand application.			Restoration, Eradication, Containment, Asset protection. Aquatic Doctors has been a licensed commercial pesticide application company for over 25 year. We have extensive experience with Phragmites. We are knowledgeable and experienced to take care of your Phragmites needs.
Natural Community Services	https://www.naturalcommunityservices.com/	info@naturalcommunityservices.com, 2485131909, 6410 Upper Straits Blvd., West Bloomfield, MI	Michigan	Michigan, Ohio	Manual removal (e.g., hand removal, spading), Mechanical removal (e.g., cutting, mowing), Prescribed burn, Surveying/mapping, Herbicide application: Broadcast spray, Backpack spray, Hand application.	5-10 acres	unlimited	Restoration, Eradication, Containment, Asset protection, Land preparation. We provide management for cities, HOAs, private residences, farms, preserves/DNR.
LakePro, Inc.	http://WWW.LAKEPROINC.COM	paul@lakeproinc.com, 8106354400, 9353 Hill Road, Swartz Creek, MI	Michigan	Michigan	Surveying/mapping, Herbicide application: Broadcast spray, Backpack spray, Hand application.			Restoration, Eradication, Containment.
Niswander Environmental	http://Niswander-env.com	rbradford@niswander-env.com, 8102250539, 9436 Maltby Road, Brighton, MI	Michigan	Michigan	Prescribed burn, Surveying/mapping, Herbicide application: Broadcast spray, Backpack spray, Hand application.			Restoration

NES Ecological Services	http://www.neswi.com	jhavel@releinc.com, 9204995789, 1250 Centennial Centre Boulevard, Hobart, WI	Wisconsin	Wisconsin	Mechanical removal (e.g., cutting, mowing), Prescribed burn, Surveying/mapping, Herbicide application: Broadcast spray, Backpack spray, Hand application.	0.10 - 100+ acres	0.10 - 100+ acres	Restoration, Eradication, Containment, Land preparation. Since 1996 NES Ecological Services has provided native habitat restoration services to municipalities, lake management districts and associations, various state and federal agencies, individual landowners, and commercial entities. These services have ranged from simply identifying and surveying Phragmites populations to managing existing populations through a combination of mowing, herbicide applications and prescribed burning. NES ecologists use their knowledge and experience with Wisconsin's native community types and invasive species to determine the most appropriate means of management to ensure invasive species control is achieved without causing serious ecological damage to the remaining native plants and wildlife.
Plantwise LLC	http://www.plantwiserestoration.com	david@plantwiserestoration.com, 7346657168, 646 Barber Ave, Ann Arbor, MI	Michigan	Michigan, Ohio	Prescribed burn, Surveying/mapping, Herbicide application: Broadcast spray, Backpack spray, Hand application.	Fraction of an acre up to 400-acres contiguous (and larger areas when subdivided)	Up to 100-acres	Restoration, Eradication, Containment, Land preparation. We have been managing Phragmites for more than 20 years. We use high-pressure spraying from 12tracked amphibious vehicles for large, dense stands, backpack spraying for smaller or more diffuse areas, and hand-swiping for restoration in high-quality areas where we seek to protect and encourage native vegetation competing with the Phragmites.
Wildlife and Wetlands Solutions, LLC	http://wildlifewetlands.com	mikayla@wildlifeandwetlandssolutions.com, 2315704215, 5211 US-131 SW, South Boardman, MI	Michigan	Illinois, Michigan, Wisconsin	Manual removal (e.g., hand removal, spading), Mechanical removal (e.g., cutting, mowing), Surveying/mapping, Skidder, Marsh Master, truck, and atv spray rigs for a variety of terrains. Herbicide application: Broadcast spray, Backpack spray, Hand application.		0.1-1000+	Restoration, Eradication, Containment, Asset protection, Land preparation. WWS has contracted with a variety of local, state, and federal entities to complete phragmites control operations at all scales. From local, residential projects, to spraying over 900 acres along the northern shoreline of Lake Michigan, we have the experience, built on years on successful phragmites control projects, to handle removal efforts at any scope. We have several different mechanical application vehicles for spraying within semi-aquatic, forested, remote, and ROW areas. We also conduct mowing operations, from removing common reed on small ponds to mowing hundreds of acres of Saginaw Bay.
Clarke Aquatic Services, Inc.	http://www.clarke.com	clarkeaquatics@clarke.com, 6306713184, 675 Sidwell Court, Saint Charles, IL 159 N. Garden Avenue Roselle, IL 60172 Joe Haulfe 630-488-9809 jhaulfe@clarke.com Clearwater MN 20061 Edison Circle East Clearwater, MN 55320 Amy Kay 715-891-6798 akay@clarke.com Niles MI - Indiana Work 1990 S. 11th Street, Unit 4 Niles, MI 49120 Joe Haulfe 630-488-9809 jhaulfe@clarke.com Nunica MI 12315 Cleveland Street, Suite E Nunica, MI 49448 Jake Britton 810-347-0112 jbritton@clarke.com	Illinois	Illinois, Indiana, Minnesota, Michigan	Surveying/mapping, Boat, Herbicide application: Broadcast spray, Backpack spray, Hand application.			Restoration, Eradication, Containment. Regardless of the size of the project Clarke has the resources to provide a full scope assessment of your phragmites challenge along with a selection of control approaches. We conduct our own aerial surveys to accurately chart areas needing treatment. Clarke's cartography department turns data from these aerial surveys into digital maps to use as guides in both aerial and ground applications. When aerial treatments are the most efficient and effective means of control, we use our own Bell 206BIII helicopter. Upon completion of an application, we'll provide a pre- and post-treatment map and a post-treatment report.
BUSH MASTER; Invasive Plant Management	RichardTheWoodsman@yahoo.com	RichardTheWoodsman@yahoo.com, 5743104092, P.O. Box 148, Knox, IN	Indiana	Indiana	Mechanical removal (e.g., cutting, mowing), Prescribed burn, Herbicide application: Broadcast spray, Backpack spray.	Depends on many factors.	Depends on many factors.	Restoration, Eradication, Containment, Asset protection. I've eradicated it in and around the perimeter of wooded wetlands by mechanically mulching or hand cutting it and then spraying new exposed sprouts. We have had great success and seen the return of native plants from the seedbed that had been suppressed under the phragmites. I will be contacting your organization with more details about my business and our capabilities.
Rantizo	http://rantizo.com	Ryan.Kloepfel@rantizo.com, 4192334179, 20617 st rt 190, Delphos, OH	Ohio	Ohio	Herbicide application: Broadcast spray, Aerial spray/broadcast.			I have had no experience with Phragmites. I recently purchased a drone sprayer and have been doing research on Phragmites as well as working with other contractor through Rantizo.

We have worked on phragmites location and control within the scope of broader projects, as well as treatment specifically for phragmites. We work with private, non-profit, and public clients for phragmites mapping and control as well as a wide range of other invasive species.
Saginaw Bay CISMA	http://www.sbcisma.com	sbcsma@gmail.com, 9896009898, 4490 W M-61, STANDISH, Michigan, 48628	Michigan	N/A	Manual removal (e.g., hand removal, spading), Mechanical removal (e.g., cutting, mowing), Surveying/mapping, Other(s): Educational Outreach.		Arenac, Bay, Huron, Saginaw, Sanilac, Tuscola Counties	Restoration, Eradication, Containment, Asset protection, Land preparation.
T&T Endeavors LLC	https://www.facebook.com/ttendeavors	troy.gibbs@rantizo.com, 5639208356, PO Box 158, Oregon, WI, 53575	Wisconsin	Wisconsin	Surveying/mapping, Herbicide application: Broadcast spray		5-50 Acres/Day	Eradication, Containment. We map and spray Phragmites via drone. Our DJI Agras MG1P can spray 2-6 acres per hour, accurately with very thorough coverage. We specialize in spot spraying patches 20ft-5 acres. Utilizing a drone we can deliver the product only where it needs to be, spraying problem areas and leaving other areas unharmed. https://www.youtube.com/watch?v=ZVmANdgUso8&t=26s

Blue Heron Ministries, Inc.	http://www.blueheronministries.org	stuartbheron1@hotmail.com, 2603162498, 2955 W Orland Rd, Angola, IN, 46703	Indiana	Indiana, Michigan	Mechanical removal (e.g., cutting, mowing), Prescribed burn, Surveying/mapping, Herbicide application: Broadcast spray, Backpack spray, Hand application	1-300 acres	1-300 acres	Restoration, Eradication. Blue Heron Ministries is a non-profit conservation organization that partners and contracts with private and public landowners to restore native landscapes from lake edge to open oak woodlands in northern Indiana and southern lower Michigan. We have been working to control and eradicate Phragmites in our region for over a decade. We prefer long-term contracts in which we can return to the site annually to effect initial control and then follow up with monitoring and additional control efforts.
Greeb Knight LLC	http://www.GreenKnight.farm	restoration.greenknight@gmail.com, 7346440115, 9820 S Mile Rd., Northville, MI, 48168	Michigan		Manual removal (e.g., hand removal, spading), Mechanical removal (e.g., cutting, mowing), Other(s): Biological Control		0-5	Eradication, Containment. Have performed removal on residential, commercial, and municipal sites ranging in size from <1 to 5 acres using predominately hand cutting.,
Eco-Resource Consulting, Inc.	https://eco-resource.net/	info@eco-resource.net, 6088779372, 2554 County Road N, Stoughton, WI, 53589, Daniel Fuhs La Crosse, WI 54603 608-316-5368 dfuhs@eco-resource.net Andrea Weissgerber Mequon, WI 53092 608-293-2405 aweissgerber@eco-resource.net	Wisconsin	Wisconsin	Manual removal (e.g., hand removal, spading), Mechanical removal (e.g., cutting, mowing), Surveying/mapping, Herbicide application: Broadcast spray, Backpack spray, Hand application		Any	Restoration, Eradication, Containment, Land preparation. Eco-Resource Consulting, Inc. (ERC) will work with our clients to reach their goals regarding Phragmites management. ERC has extensive knowledge and experience with surveying, manual, mechanical, and herbicide removal. Our staff includes a fully licensed/insured drone pilot making it possible to survey remote areas.
Nature Care Ecological Consulting and Services	http://www.naturecareofdoorcty.com	jstilkwik@live.com, 9204931788, 5285 Clarks Lake Road, Sturgeon Bay, WI, 54235	Wisconsin	Wisconsin	Manual removal (e.g., hand removal, spading), Mechanical removal (e.g., cutting, mowing), Surveying/mapping, Herbicide application: Broadcast spray, Backpack spray, Hand application		Broadcast application up to 60 acres per day. Backpack up to 12 acres per day. Hand Application up to 2 acres per day	Restoration, Eradication, Containment, Asset protection, Land preparation. We have been providing all of Wisconsin and portions of Michigan with Phragmites management over the last 11 years. We've treated Right of Ways, Wetlands, Shorelines, Timber and Agricultural fields. We've worked on Federal, State, County, Local community and private landowner contracts. We've conducted mowing in both Wisconsin and Michigan. Over the last 11 years we've treated over 2,000 acres of Phragmites throughout the State of Wisconsin.
Schmidt's Aquatic, LLC	http://www.schmidtsaquatic.com	hdhiii@schmidtsaquatic.com, 9209809190, 7470 Sherman Rd, Bancroft, WI, 54921	Wisconsin	Wisconsin	Herbicide application: Broadcast spray, Injection - Sub Surface		200 Plus Annually	Other, No past projects as of this date. Although I have never treated an area for Phragmites, my equipment and chemical expertise can handle any job.
Scotts Helicopter Service Inc	http://www.scottshelicopter.com	info@scottshelicopter.com, 5076654064, 780 Elmwood Avenue South, P.O. Box 92, Le Sueur, MN, 56058	Minnesota	Minnesota, Wisconsin	Herbicide application: Broadcast spray			Restoration, Eradication. Ducks unlimited WI, 2019. MN DNR. WI DNR.
EC3 Environmental Consulting	http://ec3grp.com	info@ec3grp.com, 4144163501, PO Box 44281, Madison, WI, 53744	Wisconsin	Wisconsin	Manual removal (e.g., hand removal, spading), Mechanical removal (e.g., cutting, mowing), Prescribed burn, Surveying/mapping, Herbicide application: Broadcast spray, Backpack spray, Hand application	200	100	Restoration, Eradication, Containment, Asset protection, Land preparation. EC3 has provided phragmite control services for containing small populations surrounded by and within desirable native vegetation through hand application. In preparation for burning and and larger broadcast herbicide work we have completed mowing followed by herbicide broadcast application. On smaller populations we have done seed head and hand removal followed by herbicide and designed site appropriate native seeding following control efforts. We have participated in lakeshore control efforts where over 50 different landowners were participates. We followed up treatment areas with surveys including mapping population size and recording effectiveness.
